

CALL FOR NOMINATIONS

APEGNB INSPIRATIONAL STEM Teacher AWARD

*Nominate A New Brunswick Teacher
Who Inspires Students To Learn About
Science, Technology, Engineering or Math (STEM)!*

At various points in our lives, we encounter remarkable teachers. These educators "make school cool!" We want to reward these enthusiastic K-12 teachers in New Brunswick whose innovative teaching skills and personal commitment have made learning STEM subjects fun and have inspired students to succeed academically.

FIVE awards are available each year. Each recipient will receive a commemorative award as well as **\$2 000 in cash** to be used at their discretion for professional development, school equipment, resource materials, website development, teaching aids, or other tools to improve teaching and student learning.

Your nomination package addressing the award criteria and a completed nomination form can be sent via:

Mail
183 Hanwell Road
Fredericton, NB E3B 2R2

Email
STEM@apegnb.com

Fax
506-451-9629

CRITERIA FOR **TEACHERS OF GRADES 9 - 12**

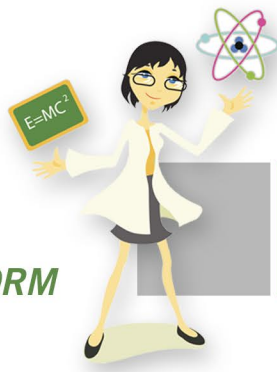

Award nominations will be evaluated and scored against the following criteria.

Please remember that APEGNB's STEM Awards selection committee does not know your nominee so they are relying on your words and examples to determine the teacher's suitability for the award. Clear, concise and specific details will strengthen your nomination.

Your nomination package must contain no more than 10 letter-sized pages—including any supplementary information.

- Demonstrates innovative teaching that promotes engineering and/or geoscience (40 points)
- Encourages curiosity and generates excitement in STEM education by engaging students in hands-on interactive activities (20 points)
- Organizes STEM activities outside of the classroom (10 points)
- Demonstrates leadership among peers by serving as a model of how educators can work with industry to enrich STEM education (10 points)
- Increases the understanding of the diverse careers available in engineering and geoscience; helps to dispel stereotypes; and encourages under-represented groups to consider careers in engineering or geoscience. (10 points)
- Uses social media platforms (e.g., Twitter, Facebook) to promote STEM projects and learning. Please provide examples. (10 points)

Although not required, nominators may include additional information such as the teacher's résumé, letters of support or newspaper clippings.
